Why use Eircodes?

- Allows delivery and service companies accurately identify addresses, ensuring that goods and services are delivered to the right location
- Facilitates better planning and delivery of public services
- Makes it quicker and easier for medical services to locate addresses

Why as a Group Water Scheme Member am I being asked to provide an Eircode?

- The Government supports the use of Eircodes in all engagements with public bodies.
- All applications for Group Water Scheme Subsidies should include the Eircode(s) of each member/customer’s properties in the application.
- By providing your Eircode you will be assisting your group water scheme with more efficient delivery of targeted information including alerts on drinking water quality, issues with service and general information.

How do I find my Eircode?

You should have received a letter from Eircodes advising you of your unique Eircode. If you don’t have this letter you can get your Eircode by:

1. Going online @ www.eircode.ie and entering your full address, or by selecting the option View on Map and locating your Eircode this way.
2. You can also contact Eircode directly by:
   - email - hello@eircode.ie
   - Post - Eircodes, Block C, Maynooth Business Campus, Maynooth, Co Kildare. W23 F854
   - Phone - 0818300005 (within Ireland), +35319012232 (outside Ireland)

FAQ’s

Q1 - I have more than one property (with an Eircode) using water from a GWS which Eircode do I provide?

A - You give the Eircode for all properties that use water provided by a GWS

Q2 - I have a farm connection which takes water from the scheme but no other properties on the scheme. What do I do?

A - As you don’t have an Eircode for the supply area you tick no in the Eircode box

Q3 - Are schools, local community halls and other similar properties required to give an Eircode?

A – Yes, If they use water provided by a GWS then they must provide an Eircode
